SUMMARY

Highly motivated **Full Stack Developer** with expertise in **Java, Spring Boot, and React**. Skilled in building scalable web applications and REST APIs. Proficient in **Java, HTML, CSS, JavaScript, SQL**. Seeking an entry-level role to apply strong problem-solving abilities and academic foundation in a dynamic team. Responsible, organized, and eager to gain professional experience.

EDUCATION

JAIN (Deemed-to-be University) <i>Master of Computer Applications (MCA) – Specialization in AI & ML</i>	Bangalore, India 2024 – Present
JSS Shri Manjunatheshwara Institute of UG and PG Studies <i>Bachelor of Science in Computer Science, CGPA: 7.11</i>	Dharwad, India 2020 – 2023

PROJECTS

Wire Fencing Management System <i>Java, Spring Boot, MySQL, React</i> - Engineered a web-based system to manage stock, sales, and purchases of fencing wires. - Implemented real-time tracking for efficient inventory management.	2023
City-wise Crime Rate Prediction <i>Python, Machine Learning, Supabase, PostgreSQL</i> - Built an interactive ML dashboard to analyze and forecast city-wise cybercrime trends. - Identified high-risk zones and visualized crime data for strategic planning.	2024
Employee Management System <i>React.js, Tailwind CSS, Spring Boot, Node.js, MySQL, React Router DOM</i> - Designed and implemented a full-stack CRUD application for efficient employee record management. - Created the frontend using React.js with React Router DOM for smooth navigation between components (Dashboard, Add, Update Employee, 404 Page). - Enhanced backend functionality by building REST APIs with Spring Boot and Node.js, integrated with MySQL for data persistence. - Applied Tailwind CSS for modern, responsive UI styling.	2025

RESEARCH PUBLICATIONS

Plant Disease Detection Using Machine Learning - Published in <i>International Journal of Scientific Research in Engineering & Management (IJSREM)</i>, Special Edition – Volume 09, Issue 05. - DOI: 10.55041/IJSREM47901	IJSREM, May 2025
--	------------------

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS, PHP
Backend: Spring Boot, Node.js, Supabase (PostgreSQL, Auth, Realtime APIs)
Frontend: React
Databases: MySQL, SQL, PostgreSQL (Supabase)
Web Technologies: REST APIs
Tools & Platforms: Git, GitHub, Postman
Core Competencies: Data Structures & Algorithms (DSA), Full-Stack Web Development

CERTIFICATES & ACHIEVEMENTS

Certified Java Full Stack Developer – Completed training at JSpiders Institute
Hackathon Participation – Participated in the First Round of the IncepTriX Hackathon 2025 at Jain University (Theme: “Shaping tomorrow’s world through intelligent innovation”) – April 2025
